

TopCrete 711

C R Y S T A L
T O P P I N G

FLOW WITH WATER

A finish to complement the endless flow of water. Seamless with no interrupting grout lines, the eyes gaze over a continuous speckle of glimmering glass beads, Mother of Pearl and colorful stones.

UP TO POOL CHEMISTRY

Unlike field-mixed or traditional pool plasters, TopCrete 711 Crystal Topping was formulated specifically for the harsh environment of chlorinated pools with special admixtures and components for a tough yet attractive finish.

TOUGH IN AND OUT OF WATER

Unlike competing pool plasters, TopCrete 711 Crystal Topping is also suitable for use outside the water. Infused with glittering aggregates such as colored glass beads, colored crushed glass and Mother of Pearl to produce a unique and stunning exposed aggregate flooring.

THE RIGHT STUFF, FAST & EASY

No resins or coatings that might be sensitive to moisture penetration, TopCrete 711 Crystal Topping is based on a cement-based dry mortar binder modified with advanced dry polymers and special additives that is just as fine in continuously damp environments as it is in dry environments.

Pre-packaged with decorative aggregates, only water is added to the mix and plastered directly on a pool's inner concrete shell. TopCrete 711 Crystal Topping contains colorful aggregates such as glass and Mother of Pearl for maximum visual impact.

1. Concrete substrate.
2. ProofCrete 709 / 710 cementitious waterproofing (optional).
3. SheildCrete fiberglass reinforcing mesh (optional).
4. TopCrete Adhesive.
5. TopCrete 711.
6. Sealer coat (optional for underwater applications).
